#### The Collection, Use, and Disclosure of Personal Information

The Coaching Association of Canada collects your NCCP qualifications and personal information and shares it with all NCCP partners according to the privacy policy detailed at www.coach.ca. By participating in the NCCP you are providing consent for your information to be gathered and shared as detailed in the privacy policy. If you have any questions or would like to abstain from participating in the NCCP please contact coach@coach.ca.

### **EVALUATION PROCEDURES: INSTRUCTOR CANDIDATE**

#### Instructional Stream – Field Evaluation

The field evaluation is designed to confirm the instructor candidate's abilities in the following areas:

- Provide support to players and/or coaches in skills sessions
- Analyze performance
- Plan a skills session
- Manage a Hockey Program

Your field evaluation includes one component: the evaluation of a skills practice.

\*A field evaluator may need to observe more than one practice if an accurate evaluation is not possible in one practice or if the coach fails to 'meet expectations' and scores 'need improvement'.

#### **Evaluation Procedures**

The field evaluation for the instructor candidate is marked in the following manner:

- exceeds expectations (EE)
- meets expectations (ME)
- needs improvement (NI)

It is your responsibility to communicate your practice time to the evaluator, as well as provide all necessary documentation. In this document you will find the sequence of events along with who is responsible for each component of the field evaluation.

#### Hockey Canada IS Evaluation Procedures: Instructor Candidate

#### **Procedures for Completing a Successful Field Evaluation**

- 1 Once Hockey Canada receives your practice details a Field Evaluator will be assigned the task.
- 2 The mentor/evaluator will receive your information along with Hockey Canada's evaluation procedures.
- 3 The mentor/evaluator will bring all documentation received from Hockey Canada and walk you through the field evaluation procedure and set up a schedule to observe your practice. The field evaluator will provide you with information on the following:
  - Process for observation, including evidence sought
  - Clarification of any questions or concerns
  - Identify and discuss overall goals and objectives
  - Identify any necessary logistics
- 4 Ensure the mentor/evaluator has full access to dressing room and ice during the entire practice.
- 5 The mentor/evaluator will conduct post-practice interview with you to gain greater insight and give you an opportunity to clarify any concerns.
- 6 The mentor/evaluator will prepare a series of interview questions to ask you based on the Yearly plan.
- 7 The mentor/evaluator will provide you with a summary of the evaluation.
- 8 The mentor/evaluator will send all documentation to the Branch in order to complete the process.

#### **Objectives of Field Evaluation**

- 1 Evaluate the coach's abilities to Plan a skills session, Provide Support to players and/or coaches in skills sessions, Analyze performance and Manage a Hockey Program.
- 2 Provide the coach with an opportunity to develop and grow based on the feedback from the mentor/evaluator.
- 3 If all criteria are met and evidence is demonstrated, certify the coach within the Instructional Stream context.

#### **Procedures for the Instructor Candidate**

#### The Instructor must:

- 1 Complete and return the following materials from **Appendix A** to Hockey Canada's Director of Development.
  - Part A: Request for Evaluation Form
  - Part B: Coach Development Plan
  - Part C: Schedule of practices
- 2 Be prepared to meet with the mentor/evaluator for at least an hour before and after each observation.
- 3 Assist with the evaluation process by permitting the mentor/evaluator access to the dressing room and to the ice surface during the practice.
- 4 Prepare for an interview with the evaluator to examine Yearly plans, planning procedures for practices and philosophies/objectives of the program. This session will also permit the mentor/evaluator to provide feedback to the coach.

# Summary of Responsibilities

Task to be completed	Evaluator Responsibility	Instructor Responsibility
Request for Evaluation Form		Send to Hockey Canada along with practice schedule.
Hockey Canada to Contact Evaluator	Mentor/evaluator to receive Instructor information along with evaluation procedures from Hockey Canada	
Initial Meeting Prior to Observation	<ul> <li>Mentor/evaluator to bring all documentation received from Hockey Canada.</li> <li>Mentor/evaluator to walk Instructor through the procedure and set up appropriate practices to observe. Provide the Instructor:</li> <li>Process for observation, including evidence sought</li> <li>Identify and discuss overall goals and objectives</li> <li>Identify any necessary logistics</li> </ul>	Instructor to bring a copy of all material submitted to Hockey Canada.
Practice Observation	Mentor/evaluator to have full access to dressing room and ice during entire practice	Provide mentor/evaluator with full access to practice. Instructor also to provide mentor/evaluator with a copy of the practice plan.
Practice Debrief	Mentor/evaluator to conduct post-practice interview with Instructor to gain greater insight and give Instructor an opportunity to clarify any concerns.	
Summary	Mentor/evaluator to provide Instructor a summary of the evaluation	
Submission	Mentor/evaluator to send all documentation to Hockey Canada for registration

# ATTACH A FULL SCHEDULE OF ALL PRACTICES TO YOUR REQUEST FORM AND INSTRUCTOR DEVELOPMENT PLAN. THE STRUCTURE OF EVALUATION IN THE NCCP

The structure of evaluation in the NCCP is based on a systematic approach to gathering evidence on instructional abilities. These abilities are tracked by the NCCP Database and substantiate instructional competency. The structure is based on outcomes, criteria, and evidence, which establish a clear link between the key components of training and evaluation.

#### Outcomes: What an instructor should be able to do in specific areas deemed important in the NCCP

The outcomes provide the framework for the NCCP and identify a generic foundation that presents a consistent structure across all sports. The NCCP has endorsed seven (7) outcomes that validate coaching in the Canadian sport system. Of these seven outcomes, Hockey will evaluate 5 outcomes in the Instructional Stream:

- Make ethical decisions
- Provide support to players and/or coaches in skills sessions
- Analyze performance
- Plan a skills session
- Manage a program

The other two outcomes — Support the competitive experience and Design a sport program — are not relevant in the Instructional Stream. The former is not relevant, as instructors do not work with players in competitive situations. The latter is not relevant, because the program design is provided by Hockey Canada.

#### Criteria: What will be evaluated within a given outcome

One or more criteria may be associated with a given outcome. The number of criteria also contributes to the scope of the evaluation. Instructors will be evaluated based on achievement of each criterion. These criteria will provide indicators of the instructor's ability to fulfil the 5 prescribed outcomes.

#### Evidence: What the evaluator must see to confirm the attainment of a given criterion

Evidence can be (1) discrete, observable coaching behaviours or (2) specific elements that are involved in determining the achievement of particular criteria. Depending on the criterion, one or more pieces of evidence may be used. The evidence identifies the depth of the evaluation and provides specific points of reference to help instructors develop and grow.

#### OUTCOMES, CRITERIA, AND EVIDENCE MATRIX FOR THE INSTRUCTIONAL STREAM

The following tables present the outcomes, criteria, and evidence for Hockey Canada's Instructional Stream. The matrix also outlines the training and evaluation method to be used. This matrix is the foundation of the tools used to evaluate Instructor candidates.

Outcome: Make ethical decisions							
Criterion	Evidence	Trained? (Y/N)	Evaluated? (Y/N)	Module	Method of Evaluation		
Correctly apply the six-step NCCP process for making ethical decisions	<ul> <li>Correctly identifies the sequence of steps in the NCCP process for making ethical decisions</li> </ul>	Y	Y		Online Evaluation		
	<ul> <li>Correctly applies the six-step process to resolve an ethical dilemma</li> </ul>	Y	Y	Make Ethical Decisions			

Outcome: Provide support to players and/or coaches in skills sessions							
Criterion	Evidence	Trained? (Y/N)	Evaluated? (Y/N)	Module	Method of Evaluation		
Use	Provides instruction in skills sessions that is appropriate for each player and/or coach	Y	Y
